

KAS Admissions Handbook 2020-2021

School and Community

Khartoum American School was founded in 1957 with a mission to educate children of US diplomats and other foreign nationals residing in Khartoum, Sudan. KAS has a suburban location, three miles from downtown Khartoum and is housed in an air- conditioned, beautiful campus built to U.S. standards.

KAS has 4 sections, which are the Early Childhood Center, an Elementary school, a Middle school and a High school. The Early Childhood Center is comprised of the Preschool and Prekindergarten classes. The Elementary school starts from Kindergarten up to grade 5. Middle school goes from grade 6 to grade 8. The High school division embraces grades 9 to grade 12. The curriculum at KAS is based on U.S. Common Core and AERO standards aligned to reinforce concepts from Early Childhood to grade 12. In High school courses become increasingly demanding and students may take Advanced Placement courses which are designed to offer rigorous university level work.

KAS has 30 classrooms, including a science laboratory, library, and a computer lab staffed with technology experts. It also houses art, music and audio-visual rooms, dedicated English as an Additional Language facility; a Student Support Services center and teacher/support staff offices. KAS has an exceptionally green garden area used for plays and ceremonies, a large playing field, a covered basketball court and grass volleyball fields. There is also a healthy food oriented kiosk and an aquatic complex that includes a 25-meter swimming pool built to international standards that are integral parts of the campus.

Enrollment at KAS

We accept applications from students of all nationalities who would benefit from our educational program and whose parents share the School's philosophy and objectives. Admission is granted to a student when it has been determined that the School has an appropriate program and resources to meet that individual's learning needs. Applications for both immediate and future entry are considered at any time throughout the year. If a waiting list for any grade is necessary, qualified applicants will be admitted according to established policies on priority. The school has limited resources for students who have physical or learning difficulties and the curriculum may not cater to their needs; admissions in such cases is determined by the school on a case-by-case basis.

The school reserves the right, following admission, to discontinue the enrollment of a student at any time if it becomes evident that the school was misinformed regarding any application documentation or it becomes evident that the school does not have the resources to address successfully the individual needs of that student.
